

Thank you for your interest in our Self Screening Food Test 500 System

Here is how it works:

The technique is based on the way in which the foods and products benefit the individual person. Each person is unique so it obviously follows that when it comes to foods and household products that "one size does not fit all", one person's food can be another person's poison.

Each individual has his/her own nutritional and energy requirements.

Have you noticed that some foods give you good energy while others seem to drag you down and seem to aggravate existing symptoms?

Bio-Compatibility Hair Analysis is about finding foods and household products that suit the individual. It is not based on Nutritional advice nor is it a Medical programme designed to treat diseases.

Please have a look at the sample report (full report is 16 pages) below to see what you would receive back from us once we have completed your Bio-compatibility Hair Analysis. The items marked in red are items that this consumer is reacting to, and the practitioner items are items that I recommend for my clients to use in their restorative program. I test for these so I know what you can and cannot use before I recommend anything to you.

If you have any questions or would like to book a complimentary 15-minute consultation to discuss the test further, please do not hesitate to contact me. My details are below.

Once you order your Food Test, the next step is simply to send us in your Hair Sample.

An image in the form of a **BLACK LINE** is displayed below, that is the amount of hair we need. You do not need to wait until you have a haircut, just get someone to cut a small sample of hair. Alternatively hair from anywhere on your body is acceptable.

Once we have received the sample we will send you a confirmation email to let you know that the sample has been received and has been forwarded to the lab for analysis. This generally takes no more than 7 working days for the results to be issued.

We will forward you the results along with a 16-page report assisting you with additional health and wellness tips from our resident Naturopath on how to get the most from the Healing System.

You will also receive a Food Diary, Progress Chart to monitor improvements of your symptoms and a Retest Voucher for your 6 month screening.

Please print the page below and forward your sample to our office at your earliest convenience.

Warmest regards

Kylie Hollonds

Bio-Compatibility Hair Analysis Hair Analysis & Wellness Programme

The Bio-Compatibility System is the result of over thirty years of research and development by qualified Naturopaths in Australia. This is a Naturopathic Wellness programme which is used in more than 20 countries.

Here is how it works

The technique is based on the way in which the foods and products benefit the individual person. Each person is unique so it obviously follows that when it comes to foods and household products that

'one size does not fit all'.

Each individual has his/her own nutritional and energy requirements. Have you noticed that some foods give you good energy while others seem to drag you down and seem to aggravate existing symptoms?

Bio-Compatibility Hair Analysis is about finding local foods and household products that suit the individual. It is not based on Nutritional advice nor is it a Medical programme designed to treat diseases.

This 6month WELLNESS PROGRAMME follows the Naturopathic principle,

“Feed the body correctly and allow the body to repair itself”.

Using a hair sample, Bio-Compatibility testing identifies the influence (either positive or negative) that each of a wide range of foods and products has on the individual body. This way we are able to determine which foods and products should be avoided and which can be used. Remember, feed the body correctly and it can function much better.

What our hair analysis test covers

Our standard test covers a list of 500 items — including all food groups, bathroom, laundry, Gluten-free and kitchen products. The focus is on what you CAN eat and use rather than what you can't. It includes common local brands found in supermarkets and health food stores. Each item is tested in the form it is usually consumed (both raw and/or cooked where applicable).

6-month WELLNESS PROGRAMME

we then test your compatibility with over 500 local foods and products. We use these test results to develop your *personal Wellness Programme*.

You receive a very comprehensive 16 page report which includes full instructions for the 6 month period.

The Report includes

Test results for over 500+ items from local supermarkets.

Day to day instructions to help you implement the programme correctly

General information on the different food groups

A '4week Progress form' which you fill out and return to me. I use this information to assess your progress and make changes if necessary. Your response to the programme is individual so we like to follow-up and assist you to gain the most benefit
